SUMMARY

Full-stack developer who is proficient in HTML, CSS, JavaScript, and PostgreSQL (PERN stack). Several years of experience in the service industry and as a freelance designer. My graphic design business and experience designing cakes has made me adept at customer relations and problem-solving.

PROJECTS

Health Care Helper (demo) Repos: [server](#) | [client](#)

- Front-end heavy application that assists BCBS CAs with their systems and calls.
- Users can find a list of technical insurance terms, as well as a click through system to guide along a call.
- Tools Used: React, HTML, CSS, PostgreSQL, Node, JS, Heroku, Vercel

Stuff To Do (Around You) (demo) Repos: [server](#) | [client](#)

- A full-stack application that shows a tailor-made list of cool cheap things to do in major cities across the US.
- Tools Used: React, HTML, CSS, JS, PostgreSQL, Node, Heroku, Vercel
